

SHRINKK™ Shrink Film features a wide variety of polyolefin shrink wrapping products for the packaging industry in a variety of sizes including shrink film rolls, bags and tubing that offer superior stretching strength and power. It offers the following features:

- ▶ Manufactured with a sturdy, multi-layer blend of durable polyolefin-based materials.
- ▶ Engineered to be used in conjunction with both portable and automatic systems.
- ▶ Designed to shrink at lower temperatures and withstand a variety of external stresses.
- ▶ Puncture resistant, protects against pilfering and tampering.
- ▶ FDA compliant for direct food contact.
- ▶ Best value for general purpose shrink applications.
